LOG OUT

MySQL Databases

MySQL Databases allow you to store lots of information in an easy to access manner. The databases themselves are not easily read by humans. MySQL databases are required by many web applications including some bulletin boards, content management systems, and others. To use a database, you'll need to create it. Only your MySQL Username (same as your control panel login user) has privileges to access a database and read from or write to that database.
Create and remove MySQL databases for use on your account easily below

Create New Database

Currently using 1 of 400 available databases.

New Database:
epiz_27160250_

Create Database

Delete a database

DELETE Database
epiz_27160250_myhousing

Remove Database

Current Databases

MySQL DB Name	MySQL User Name	MySQL Password	MySQL Host Name	PhpMyAdmin
epiz_27160250_myhousing	epiz_27160250	(Your vPanel Password)	sql310.epizy.com	Admin

Experiencing issues with phpMyAdmin? Log out of your control panel, clear cookies and sessions [not available in all browsers] and log back into your control panel and try again.

Server: sql310.byetcluster.com » Database: epiz_27160250_myhousing
